

# 2025 SIMOPS

*Access Granted*

JULY 16 - 18, 2025

## SCHEDULE AT A GLANCE

### WEDNESDAY, JULY 16, 2025

- 8:00 – 5:00: CHSOS Course
- 8:00 – 5:00: See Page 2 for the Full Listing of Preconference Courses
- 6:30 – ????: SimOps 2025 Kickoff Celebration  
Join us at Obed & Issac's Beer Garden

### THURSDAY, JULY 17, 2025

- 7:00 – 9:00: Breakfast w/ Exhibitors
- 7:45 – 8:45: Learning Labs w/ Exhibitors
- 9:00 – 10:15: Welcoming Ceremony & Keynote
- 10:30 – 12:00: Educational Sessions & Learning Labs w/ Exhibitors
- 12:00 – 3:00: Networking Lunch & Exhibitor Showcase
- 2:00 – 3:00: Professor Rounds & SimVentors Showcase
- 3:15 – 4:15: Educational Sessions & Learning Labs w/ Exhibitors
- 4:30 – 5:30: SOTS Meeting
- 5:30 – 6:30: Networking Social Hour & SSH Board of Directors Meet & Greet
  - Sponsored by: Simulab

### FRIDAY, JULY 18, 2025

- 7:00 – 8:00: Light Breakfast
- 7:45 – 8:45: Learning Labs w/ Exhibitors
- 9:00 – 10:15: Welcoming Ceremony & Keynote
- 10:30 – 12:00: Educational Sessions & Learning Labs w/ Exhibitors
- 12:00 – 1:30: Networking Lunch
- 1:45 – 2:45: Educational Sessions
- 3:00 – 4:00: Educational Sessions

Keynote Speaker  
**DAVID SHABLAK**

Keynote Speaker  
**DR. JON HANDLER**

# 2025 SIMOPS

*Access Granted*

## PRECONFERENCE COURSE LISTING

WEDNESDAY, JULY 16, 2025

8:00 AM - 5:00 PM

### SSH CHSOS Course

**Facilitated by: Melissa Lowther & Jason Konzelmann**

Develop your personal action study plan for study by attending one of SSH's CHSOS Course. Led by experienced simulation experts, the CHSOS Course is designed to build your core knowledge of simulation principles and practice. The program will also help you identify areas of strength and weakness in your knowledge and practice of simulation. Attendees are encouraged to have a working knowledge of simulation education with at least 12 months of experience working in the field of simulation.

**PRICE \$320**

8:00 AM - 12:00 PM

### Data! What You Can't Measure, You Can't Manage, Report, Demonstrate, and Organize

**Facilitated by: Jason Konzelmann**

Bring your laptops for this interactive learning experience that will help everyone create and implement searchable, accurate data for their centers that will be modifiable, personalized to individual center need, and scalable. Participants will gain insight on how to generate usable data through existing software for centers of any size or complexity to meet any need from center utilization to inventory management and dashboard creation primarily with MS Forms, Power BI and PowerAutomate.

**PRICE \$299**

### Mastering High-Fidelity Simulator Troubleshooting: A Hands-On Guide for Simulation Professionals

**Facilitated by: Tariq Al-Shanteer**

This hands-on course is designed for intermediate-level simulation technicians with a basic understanding of high-fidelity simulators. Participants will troubleshoot common issues in adult, pediatric, and newborn simulators from leading brands. Through guided instruction, hands-on exercises, and real-world scenarios, they will enhance their troubleshooting skills, learn preventative maintenance strategies, and improve efficiency with effective technical documentation.

**PRICE \$299**

1:00 PM - 5:00 PM

### Planning for ROI – Building Value into Simulation Project Development

**Facilitated by: Lisa Barker**

This workshop will not only introduce simulation educators and administrators to a framework for demonstrating levels of programmatic value but also highlighting how this value demonstration can lead to increased access to simulation-based education. By quantifying return on investment, institutions can advocate for expanded simulation offerings that bridge gaps in healthcare training and access.

**PRICE \$299**

### Innovations in Low-Cost Task Trainers and Moulage Design

**Facilitated by: Tim Shea**

This workshop will introduce educators to low-cost tips and tricks for building task and skill trainers. Repurpose spare parts, find new ones, or make the components of these trainers yourself. Many of these devices can be made for \$15 or less, yet are high quality and very realistic. In this workshop we go over a step-by-step process of how create and where to obtain the parts to make each of the above skill trainers, with keeping expenses as low as possible..

**PRICE \$299**
